SUMMARY

Aspiring Cyber Security and Cyber Forensics undergraduate with hands-on exposure to vulnerability assessment, secure system design, and web application security testing. Interested in strengthening system security through practical analysis of threats, secure development practices, and continuous learning in emerging cybersecurity domains.

EDUCATION

- **Srinivas University Institute of Engineering and Technology** 2023 – 2027
  B.Tech – Cyber Security *CGPA: 9.33 (5th sem)*
- **MGM PU College, Udupi** 2023
  Pre-University Course *88%*
- **Glowinstar Integrated English Medium School** 2021
  SSLC (ICSE) *85%*

SKILLS

- **Programming:** Python, Java, C, JavaScript, Solidity
- **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, MERN Stack
- **Databases:** MongoDB, MySQL
- **Developer Tools:** VSCode, Jupyter Notebook, Wokwi, LaTeX
- **Cybersecurity Tools:** Wireshark, Nmap, Burp Suite, SQLMap
- **Soft Skills:** Communication, Leadership, Problem Solving, Quick Learner

INTERNSHIPS

- **Cyber Security & Blockchain Intern — TechnoHacks Solutions (May 2025)**
  Developed blockchain smart contracts and decentralized applications using Solidity, Truffle, and Ganache.

PROJECTS

Cybersecurity Projects

- **Advanced Network Security Analysis (March 2026)**
  Developed a cybersecurity project on advanced network security analysis, focusing on monitoring network traffic, identifying vulnerabilities, and implementing security controls.
- **Data Anonymisation Tool (July 2025)**
  Developed a data anonymisation tool to protect sensitive information by masking, encrypting, and removing personally identifiable data.

Development Projects

- **Portfolio Website (Oct 2024)**
  Developed a responsive personal portfolio website using HTML, CSS and JavaScript.
- **Weather Website (Dec 2025)**
  Developed a weather forecasting website that provides real-time weather updates using API integration and dynamic user interface design.
- **SPA Website (Jan 2026)**
  Developed a SPA website focused on haircare and skincare services, showcasing treatments, products, and booking features.
- **Currency Converter(March 2026)**
  Developed a currency converter application to provide real-time exchange rates using API integration and dynamic user interface.

ACHIEVEMENTS

- **Office Bearer — SATARC Cyber Security Student Association**
  Served as an Office Bearer, managing organizational activities, coordinating events, and supporting member engagement initiatives.
- **Membership Coordinator — Leo Club, SUIET**
  Served as Membership Coordinator at Leo Club, managing member onboarding, engagement activities, and retention initiatives.
- Participated in and won prizes in **competitions**.
- Organized and conducted multiple **technical and cultural events** at institutional level.

CERTIFICATIONS

- Cisco Cybersecurity
- IBM SkillsBuild
- IEEE
- Technohacks Solutions
